INTRODUCTION

This is the first issuance of a joint listing of serial holdings of the U.S. Environmental Protection Agency (EPA) (including the Illinois Institute for Environmental Quality), the National Oceanic and Atmospheric Administration (NOAA), and the U.S. Patent and Trademark Office. A total of 11,715 titles and 20,767 holdings and records are listed.

The arrangement is alphabetical by serial title. Parentheses following a title may contain the definition of an acronym, the name of the organization publishing the journal, or indications of a former (F) or a current (C) title.

The letter codes preceeding each item identify the holding organization. EPA library codes are assigned according to geographical locations representing the EPA regional structure: all EPA library codes begin with an "E." The "A" library is always the regional library: "B," "C," and sequentially lettered codes refer to other libraries located in the EPA geographical region. NOAA library codes begin with an "N." U.S. Patent and Trademark Office library codes begin with a "P." Addresses and telephone numbers are provided in most cases.

Each holding record includes the holding library code (e.g., EPA - E03A; NOAA - NNMA; U.S. Patent and Trademark Office - P02A), the beginning volume number and date [e.g., 074 (1967)] and the ending date (or "to present" for continuing subscriptions). An asterisk following the holding statement indicates that issues are missing. The letter "M" indicates the journal is available in microform only.

The 8-digit number immediately following the title is the International Standard Serial Number (ISSN).

Questions regarding this document may be referred to:

Ms. Sarah Thomas Kadec
Chief, Library Systems Branch
U.S. Environmental Protection Agency
Room 2903, Waterside Mall (PM-213)
401 M Street, S.W.
Washington, D.C. 20460

ABBREVIATIONS USED IN THE SERIAL HOLDINGS REPORT

Those abbreviations marked with an asterisk indicate that the word will be spelled out in full, rather than abbreviated, if it is the first word of the serial title.
